IT support professional with four years of technical support experience and a customer service background. Troubleshoots user issues involving Windows computers, software, printers and connectivity; communicates clearly, documents resolutions and escalates complex problems. Completing a Software Development diploma at NBCC in December 2026.

Technical and Service Skills

First level IT support • Windows desktops and laptops • Hardware and peripherals • Software installation and configuration • Microsoft Office and Outlook • User support by phone and remotely • Issue documentation and escalation • Customer service • WordPress • Git and GitHub

Professional Experience

Grocery Clerk | Atlantic Superstore, Saint John, NB | March 2025–Present

- Assist customers with product questions and direct requests to the appropriate department when needed.
- Restock shelves and dairy areas, check product placement and keep displays organized during busy shifts.
- Move stock from pallets using store equipment and follow safe handling procedures in storage and sales areas.
- Work with supervisors and colleagues to prioritize replenishment and maintain accurate inventory and pricing displays.

Web Developer Co-op Student | Gravitit Tech Solutions, Remote | April–June 2026

- Developed and updated pages for a multilingual community website using Next.js and WordPress.
- Investigated display and functionality issues, tested fixes and checked pages on desktop and mobile screens.
- Updated site content and WooCommerce product information, checking that links, translations and forms worked as expected.
- Tracked tasks and code changes with GitHub, documented completed work and collaborated remotely with a small team.

Energy Sales Representative | Summerhill Group, Saint John, NB | September–December 2024

- Explained energy efficiency programs to customers and answered questions in clear, practical terms.
- Collected customer information accurately and maintained daily activity and sales records.
- Shared field updates and customer information with the main office to support program follow-up.
- Helped train four team members on program information, customer communication and consistent data collection.

General Manager | Toslad Group, Abuja, Nigeria | January 2023–June 2024

- Directed day-to-day operations, assigned work to staff and followed up on priorities and progress.
- Coordinated with staff, management and clients to identify service issues and decide which requests needed attention first.

- Reviewed workflows and supported improvements to digital records, websites and internal IT services.
- Oversaw operational reporting and documentation, handled escalations and protected confidential business information.

Customer Service and Sales Associate | Jerseygreat Store, Lagos, Nigeria | 2019–2024

- Answered customer questions about products and orders, addressed concerns and communicated next steps clearly.
- Maintained customer, order and product information; updated listings, prices and inventory data for the online store.
- Helped resolve website content and product upload issues, including CSV formatting and display problems.
- Coordinated online order and delivery information, following up on customer requests and keeping sales records organized.

IT Support Specialist | Toslad Group, Abuja, Nigeria | 2019–2023

- Provided first level support for Windows computers, printers, software and mobile devices, in person and remotely.
- Investigated user reports of hardware, software, connectivity and account problems; resolved routine issues and referred more complex ones for further support.
- Installed and configured applications and devices, assisted with user access and recorded problems, actions taken and outcomes.
- Explained troubleshooting steps to users and followed up to help restore day-to-day operations.
